COMPANY OVERVIEW & VISION

Engineering Trust, Architectural Elegance & Structural Resilience

EXECUTIVE SUMMARY

Amulya Builders Pvt. Ltd. is one of Nepal's premier design and construction firms, founded in 2009. Headquartered in Dhanusha with a full-fledged technical branch in Tikathali, Lalitpur, we provide end-to-end turnkey solutions spanning architectural design, structural engineering, 3D visualization, municipal approval documentation, and superior civil construction across Nepal with seismic resilience.

OUR VISION

To be recognized across Nepal as the benchmark of engineering integrity, architectural innovation, and enduring construction that enriches communities and safeguards lives through earthquake engineering.

OUR MISSION

To deliver uncompromising construction quality, transparent cost management, and timely project delivery with certified materials, licensed engineers, and personalized customer collaboration from day one.

CORE VALUES & ETHICAL STANDARDS

1. Engineering Integrity

No shortcuts on rebar, cement grade, or foundation d epth. Every member strictly follows structural drawings.

2. Total Transparency

Detailed, unhidden Bill of Quantities (BOQ). No surp rise charges or inflated rate variations.

3. NBC Code Compliance

Strict compliance with Nepal National Building Code NBC 105:2020 for seismic resistance in Zone V.

4. Punctual Delivery

Organized Gantt schedules, experienced site supervis ors, and guaranteed on-time project handovers.

PROVEN TRACK RECORD & REACH

250+
Successful Projects
Residential & Commercial

9+
Years in Business
Proven Track Record

20+
Happy Clients
Inside & Outside Valley

15+
Team Members
Engineers, Architects & Staff

REGIONAL COVERAGE (INSIDE & OUTSIDE KATHMANDU VALLEY):

We execute full turnkey projects throughout Kathmandu, Lalitpur, Bhaktapur, Janakpur, Dhanusha, Chitwan, and surrounding districts with unified quality management and centralized engineering oversight.

COMPREHENSIVE SERVICES & PROCESS

Turnkey Architectural, Structural & Construction Capabilities

OUR CORE SPECIALIZATIONS

Architectural & 3D Modeling Design

- Complete functional space planning tailored to family/business needs
- Photorealistic 3D elevations, exterior views & walk-through renders
- Full municipal approval documentation (Nagar Palika building pass drawings)
- Vastu-compliant layouts integrated seamlessly with modern aesthetics

Turnkey Residential Construction

- Bespoke luxury bungalows, duplex villas & modern residential homes
- Earthquake-resistant RCC ductile frame engineering with high-grade steel
- Comprehensive plumbing, electrical conduits, sanitary fixtures & drainage
- End-to-end management from earthwork/excavation to housewarming ceremony

Commercial & Institutional Complexes

- Multi-storey commercial plazas, corporate towers & retail centers
- Hotels, hospitals, resorts & educational school/college campuses
- Advanced fire safety systems, high-efficiency MEP engineering & parking layouts
- Fast-track delivery schedules to ensure accelerated commercial ROI

Structural Consultancy & Seismic Retrofitting

- NBC 105:2020 seismic analysis & dynamic response spectrum calculation
- Detailed Project Reports (DPR), site feasibility & soil bearing test evaluation
- Structural retrofitting, jacket column addition & strengthening of old buildings
- Independent engineering audits and structural stability certificates

Interior Design & Premium Finishing Works

- Italian marble, vitrified tiles, granite countertops & parquet wooden flooring
- Modular kitchen layouts, custom storage wardrobes & gypsum ceiling lighting
- Exterior stone cladding, textured waterproofing paints & CNC decorative screens
- Soundproof double-glazed UPVC/aluminum windows & toughened glass railings

Project Management & Quantity Surveying (BOQ)

- Transparent item-by-item Bill of Quantities (BOQ) with verifiable market rates
- Daily on-site engineering supervision & weekly video/photo client updates
- Laboratory cube testing for concrete compressive strength & rebar tensile check
- Strict milestone-based payment schedules tied directly to physical progress

OUR 5-STAGE TURNKEY EXECUTION WORKFLOW

01
Consultation
Site inspection & requirement intake

02
3D Design
Architectural planning & 3D render

03
BOQ & Permit
Transparent costing & municipal pass

04
Construction
RCC execution & lab-tested quality

05
Handover
Interior finish & key handover

FEATURED PROJECTS PORTFOLIO

A Selection of Landmark Developments Across Nepal

SIGNATURE RESIDENTIAL & COMMERCIAL PROJECTS

Project 6: Jay Kishor Mahato Reside

COMPLETED

Location:	Chitwan, Nepal
Building Type:	2.5-Storey Residential Residence
Scale & Area:	1690 sq ft (Plinth: 1300 sq ft)
Project Cost:	Rs 1 Cr 10 Lakhs
Timeline:	11 Months

Modern 2.5-storey home with a 42 ft grand facade, ro oftop pergola, double balconies, and earthquake-resis

Project 7: Dr. Sakil Residential Vi

COMPLETED

Location:	Janakpur, Nepal
Building Type:	Luxury Contemporary Bungalow
Scale & Area:	1966 sq ft Built-up Area
Project Cost:	Rs 1.50 Crore
Timeline:	1 Year 6 Months

Prestige residential villa featuring open landscaped lawns, expansive panoramic windows, stone-clad facad

Project 11: Budhanilkantha Luxury Re

COMPLETED

Location:	Budhanilkantha, Kathmandu
Building Type:	Contemporary RCC Villa
