9+ YEARS LEADERSHIP

MESSAGE FROM THE MD & CEO

Engineering Generational Trust & Resilience

Dear Valued Clients, Partners & Well-Wishers,
Welcome to Amulya Builders Pvt. Ltd. When we established this company, our founding mission was clear: to redefine Nepal's construction sector through uncompromising structural engineering, architectural elegance, and transparent trust.

In a nation situated in Seismic Zone V, building is not merely pouring concrete—it is a sacred responsibility to safeguard human lives. Every residential home and commercial development we execute complies strictly with the Nepal National Building Code (NBC 105:2020), utilizing certified materials and precise BOQ standards.

With 9+ years of field excellence, 20+ satisfied clients, and 15+ licensed engineering professionals, we guide every milestone from soil testing to keys in hand. We invite you to partner with us on your landmark project.

Warm regards,

Er. Sujit Shah

COMPANY OVERVIEW & VISION

Engineering Trust, Architectural Elegance & Structural Resilience

EXECUTIVE SUMMARY

Amulya Builders Pvt. Ltd. is a premier architectural design, structural engineering, and turnkey construction company. Headquartered in Dhanusha with our central technical office in Tikathali, Lalitpur, we provide comprehensive services from soil testing and 3D modeling to precision NBC-compliant construction. With 9+ years of experience, 20+ satisfied clients, and a dedicated team of 15+ licensed professionals, we build enduring structures inside and outside Kathmandu Valley across Nepal.

OUR VISION

To be recognized across Nepal as the benchmark of engineering integrity, architectural innovation, and enduring construction that safeguards lives through seismic-compliant building design.

OUR MISSION

To deliver uncompromising construction quality, transparent cost management, and timely handover with certified materials, licensed engineers, and personalized client collaboration from day one.

CORE ENGINEERING VALUES

1. Engineering Integrity

No shortcuts on steel rebar or cement grade.
Strict adherence to verified structural designs.

2. Total Transparency

Detailed, unhidden Bill of Quantities (BOQ).
Clear market rates and zero hidden charges.

3. NBC Code Compliance

NBC 105:2020 seismic engineering standard for complete safety in seismic Zone V.

4. Guaranteed Punctuality

Precise Gantt schedules, experienced site engineers, and guaranteed on-time handover.

PROVEN TRACK RECORD & REACH

9+	20+	15+	250+
Years Experience	**Happy Clients**	**Professionals**	**Delivered Projects**
Active Excellence	Inside & Outside Valley	Engineers & Architects	Residential & Commercial

NATIONWIDE SERVICE REACH (INSIDE & OUTSIDE KATHMANDU VALLEY):

Active turnkey execution in Kathmandu, Lalitpur, Bhaktapur, Janakpur, Dhanusha, Chitwan, and beyond.

COMPREHENSIVE SERVICES & PROCESS

Turnkey Architectural, Structural & Construction Capabilities

OUR CORE SPECIALIZATIONS

Architectural & 3D Modeling Design

- Complete functional space planning tailored to client needs
- Photorealistic 3D elevations, exterior views & walkthroughs
- Municipal approval documentation (Nagar Palika building pass)
- Vastu-compliant layouts seamlessly merged with modern style

Turnkey Residential Construction

- Bespoke luxury bungalows, duplexes & residential homes
- Earthquake-resistant RCC ductile frame engineering
- Complete plumbing, electrical conduits & sanitary fixtures
- End-to-end management from earthwork to handover

Commercial & Institutional Complexes

- Multi-storey commercial plazas, corporate towers & retail hubs
- Hotels, hospitals, resorts & educational school campuses
- Advanced fire safety, MEP engineering & parking systems
- Fast-track delivery schedules to accelerate investment ROI

Structural Consultancy & Retrofitting

- NBC 105:2020 seismic analysis & dynamic calculations
- Detailed Project Reports (DPR), site feasibility & soil tests
- Structural retrofitting & jacket column additions
- Independent engineering audits & structural stability certificates

Interior Design & Premium Finishing Works

- Italian marble, vitrified tiles, granite & parquet flooring
- Modular kitchen layouts, custom wardrobes & false ceilings
- Exterior stone cladding, textured waterproof paints & CNC panels
- Soundproof UPVC/aluminum windows & toughened glass railings

Project Management & Quantity Surveying (BOQ)

- Item-by-item BOQ with completely transparent market rates
- Daily on-site engineering supervision & weekly progress photos
- Laboratory cube testing for concrete compressive strength
- Milestone-based payment schedules tied to verified work

OUR 5-STAGE TURNKEY EXECUTION WORKFLOW

01
Consultation
Site inspection & requirements

02
3D Design
Architectural & 3D renders

03
BOQ & Permit
Transparent BOQ & municipal pass

04
Construction
RCC execution & la b testing

05
Handover
Finishing & key ha ndover

SIGNATURE RESIDENTIAL & COMMERCIAL PROJECTS

Commercial & Business Complex

Location:	Kathmandu Valley
Building Type:	Commercial & Residential
Scale & Area:	3.5-Storey Commercial & Retail
Project Cost:	Turnkey Contract

NBC 105:2020 Compliant • Full Turnkey Execution

Jay Kishor Mahato Residential

Location:	Chitwan, Nepal
Building Type:	2.5-Storey Residential Residence
Scale & Area:	1690 sq ft (1300 sq ft Plinth)
Project Cost:	Rs 1 Cr 10 Lakhs

NBC 105:2020 Compliant • Full Turnkey Execution

Dr. Sakil Residential Villa

Location:	Janakpur, Nepal
Building Type:	Luxury Contemporary Bungalow
Scale & Area:	1966 sq ft Built-up Area
Project Cost:	Rs 1.50 Crore

NBC 105:2020 Compliant • Full Turnkey Execution

Budhanilkantha Luxury Residence

Location:	Budhanilkantha, Kathmandu
Building Type:	Contemporary RCC Villa
Scale & Area:	1100 sq ft Plinth (26 ft Face)
Project Cost:	Rs 1 Cr 20 Lakhs

NBC 105:2020 Compliant • Full Turnkey Execution
